

1) Create a Database called music.

```
Code: var MongoClient = require('mongodb').MongoClient;
//Create a database named "mydb":
var url = "mongodb://localhost:27017/music";
```

```
MongoClient.connect(url, function(err, db) {
  if (err) throw err;
  console.log("Database created!");
  db.close();
});
```

```
1 var MongoClient = require('mongodb').MongoClient;
2 //Create a database named "mydb":
3 var url = "mongodb://localhost:27017/music";
4
5 MongoClient.connect(url, function(err, db) {
6   if (err) throw err;
7   console.log("Database created!");
8   db.close();
9 });
10
```

```
ukistu03@ukipc03: ~/Documents/Uki4/Programming/nodejs$ node ndm1.js
(node:6925) DeprecationWarning: current URL string parser is deprecated, and will be removed in a future version. Use the new StringParser class instead.
Database created!
ukistu03@ukipc03:~/Documents/Uki4/Programming/nodejs$
```

2) Create a collection called songdetails.

```
Code: var MongoClient = require('mongodb').MongoClient;
var url = "mongodb://localhost:27017/";
```

```
MongoClient.connect(url, function(err, db) {
  if (err) throw err;
  var dbo = db.db("music");
  dbo.createCollection("songdetails", function(err, res) {
    if (err) throw err;
    console.log("Collection created!");
    db.close();
  });
});
```

3) Create the above 5 song documents.

Code: var MongoClient = require('mongodb').MongoClient;

var url = "mongodb://localhost:27017/";

MongoClient.connect(url, function(err, db) {

if (err) throw err;

var dbo = db.db("music");

var myobj = [

{

Songname : "Thaniye Thananthaniye",

flim : "Rhythm",

Musicdirector: "A.R.Rahman",

Singer : "Shankar mahadevan"

},

{

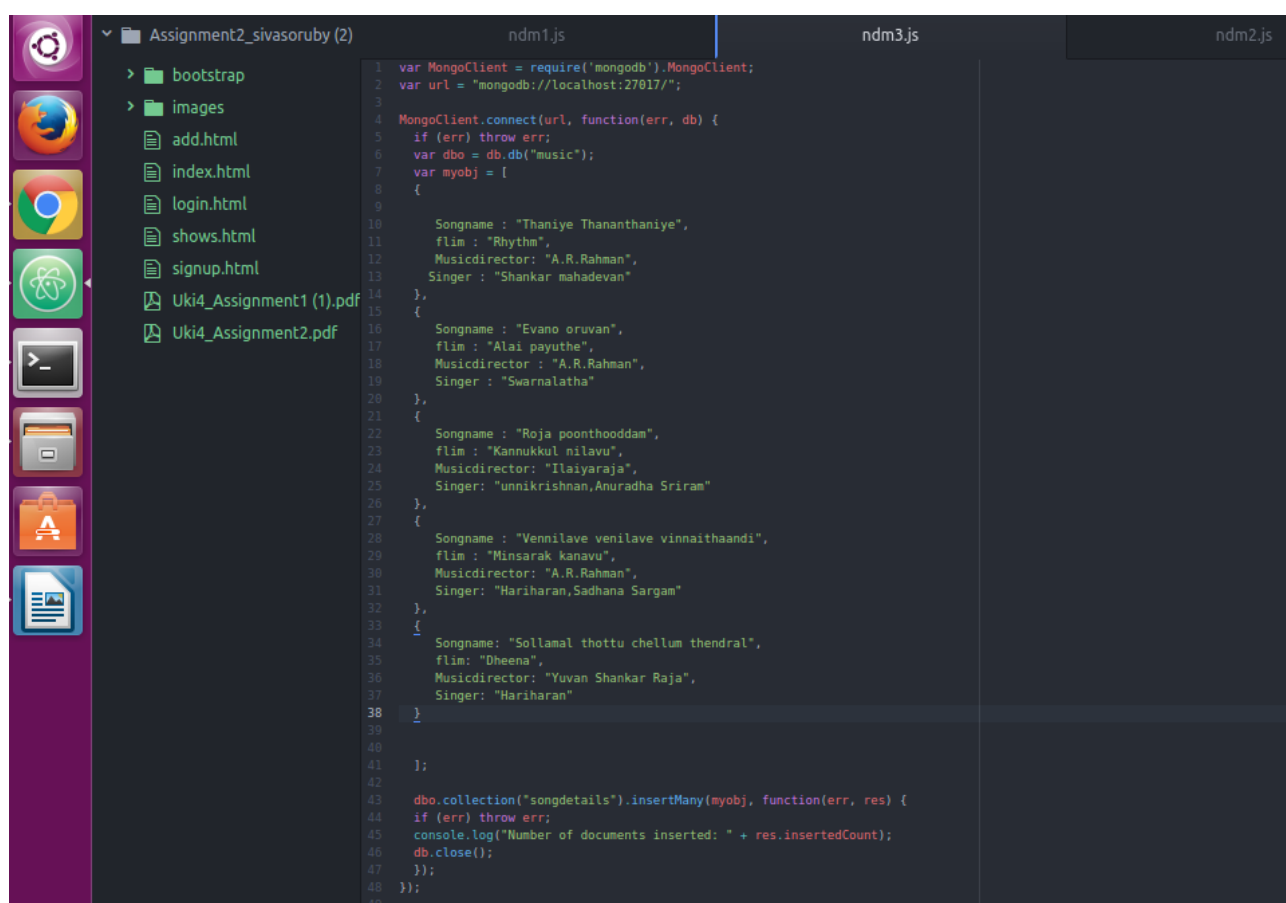

Songname : "Evano oruvan",

flim : "Alai payuthe",

```
    Musicdirector : "A.R.Rahman",
    Singer : "Swarnalatha"
  },
  {
    Songname : "Roja poonthooddam",
    flim : "Kannukkul nilavu",
    Musicdirector: "Ilaiyaraja",
    Singer: "unnikrishnan,Anuradha Sriram"
  },
  {
    Songname : "Vennilave venilave vinnaihaandi",
    flim : "Minsarak kanavu",
    Musicdirector: "A.R.Rahman",
    Singer: "Hariharan,Sadhana Sargam"
  },
  {
    Songname: "Sollamal thottu chellum thendral",
    flim: "Dheena",
    Musicdirector: "Yuvan Shankar Raja",
    Singer: "Hariharan"
  }
}
```

```
];
```

```
dbo.collection("songdetails").insertMany(myobj, function(err, res) {
  if (err) throw err;
  console.log("Number of documents inserted: " + res.insertedCount);
  db.close();
});
});
```

```

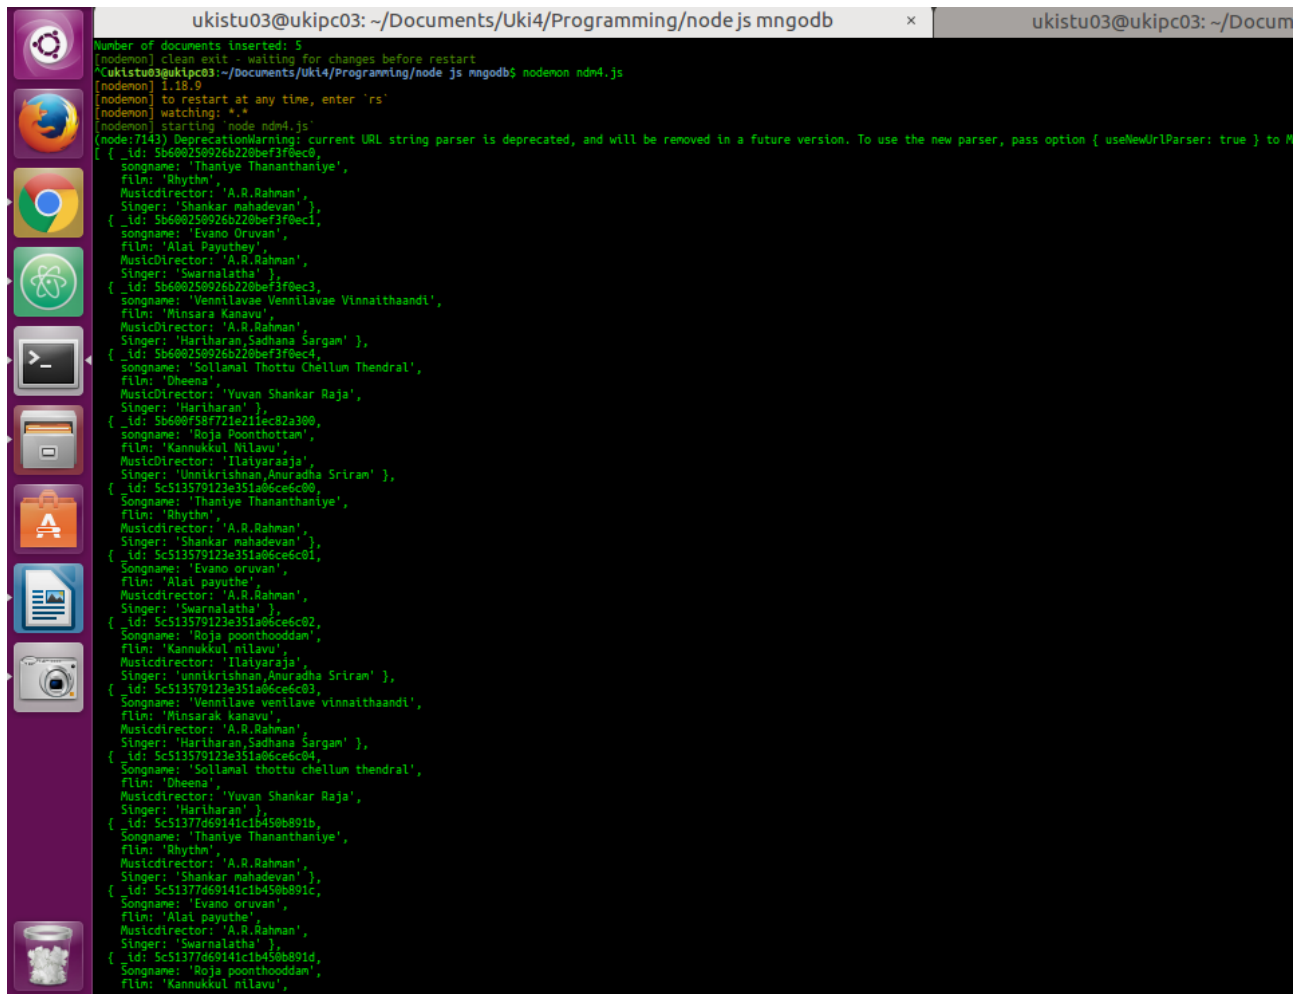

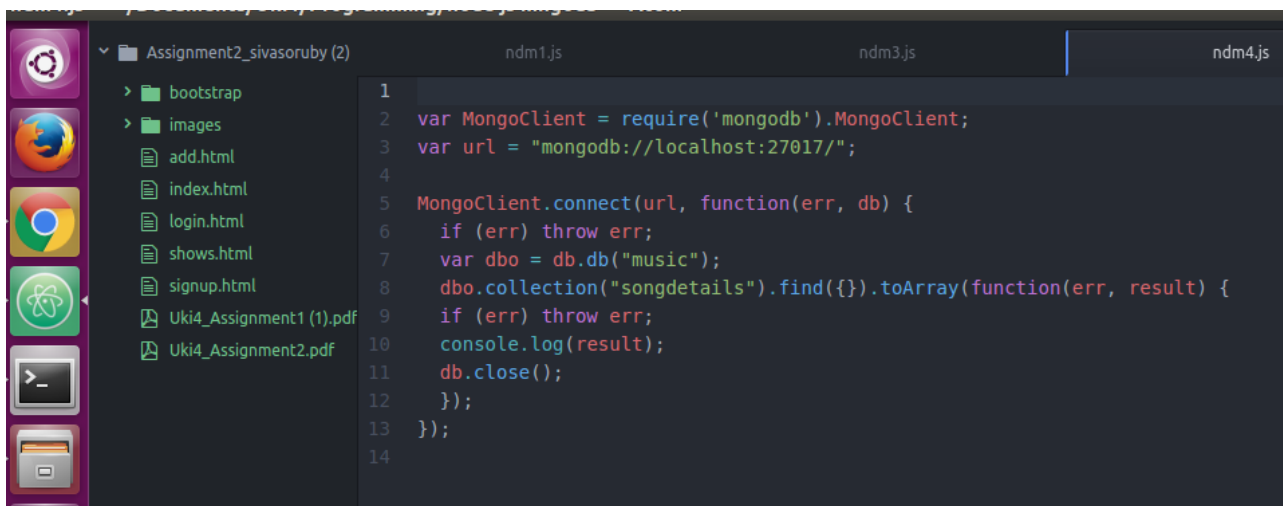

npm WARN node.js mongodb no license field.
ukistu03@ukipc03:~/Documents/Uki4/Programming/node js mngodb$ nodemon ndm3.js[nodemon] 1.18.9
[nodemon] to restart at any time, enter `rs`

(node:6662) DeprecationWarning: current URL string parser is deprecated, and will be removed in a future version
{ useNewUrlParser: true } to MongoClient.connect.
Number of documents inserted: 5
[nodemon] clean exit - waiting for changes before restart

```

4) List all documents created.

Code: `var MongoClient = require('mongodb').MongoClient;`
`var url = "mongodb://localhost:27017/";`

`MongoClient.connect(url, function(err, db) {`
 `if (err) throw err;`
 `var dbo = db.db("music");`
 `dbo.collection("songdetails").find({}).toArray(function(err, result) {`
 `if (err) throw err;`
 `console.log(result);`
 `db.close();`
 `});`
`});`

5) List A.R.Rahman's songs.

Code: `var MongoClient = require('mongodb').MongoClient;`

`var url = "mongodb://localhost:27017/";`

`MongoClient.connect(url, function(err, db) {`

`if (err) throw err;`

`var dbo = db.db("music");`

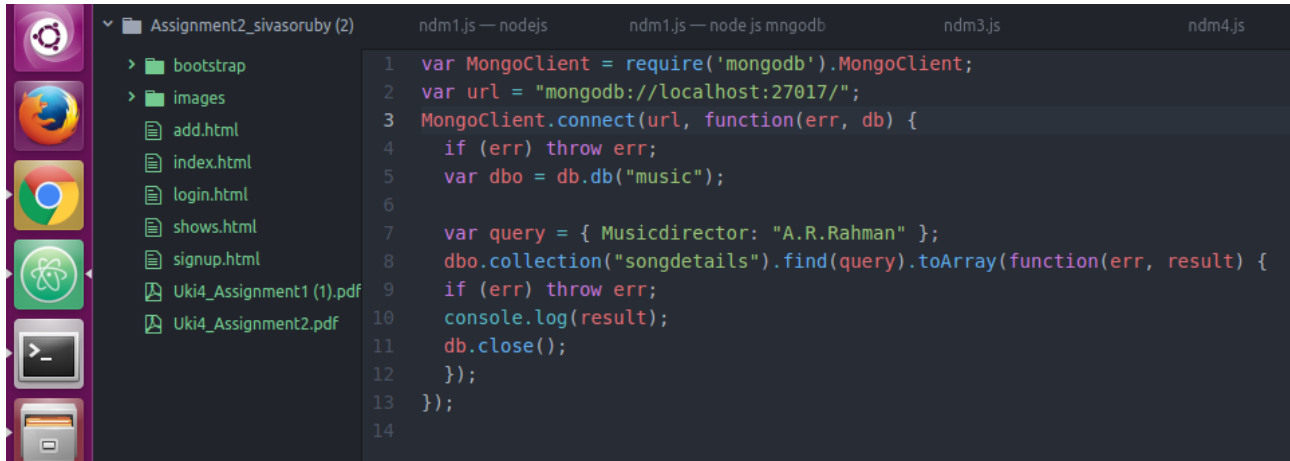

`var query = { Musicdirector: "A.R.Rahman" };`

`dbo.collection("songdetails").find(query).toArray(function(err, result) {`

```

if (err) throw err;
console.log(result);
db.close();
});
});

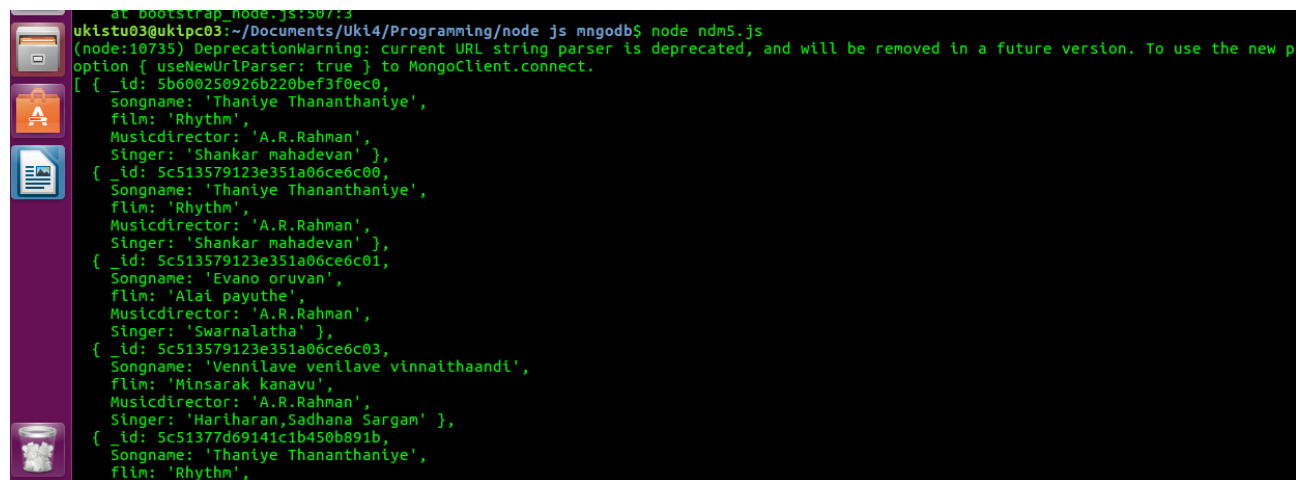

```

```

1 var MongoClient = require('mongodb').MongoClient;
2 var url = "mongodb://localhost:27017/";
3 MongoClient.connect(url, function(err, db) {
4   if (err) throw err;
5   var dbo = db.db("music");
6
7   var query = { Musicdirector: "A.R.Rahman" };
8   dbo.collection("songdetails").find(query).toArray(function(err, result) {
9     if (err) throw err;
10    console.log(result);
11    db.close();
12  });
13 });
14

```

```

ukistu03@ukipc03:~/Documents/Uki4/Programming/node js mngodb$ node ndm5.js
(node:10735) DeprecationWarning: current URL string parser is deprecated, and will be removed in a future version. To use the new p
option { useNewUrlParser: true } to MongoClient.connect.
[ { _id: 5b600250926b220bef3f0ec0,
  Songname: 'Thaniye Thananthaniye',
  flim: 'Rhythm',
  Musicdirector: 'A.R.Rahman',
  Singer: 'Shankar mahadevan' },
  { _id: 5c513579123e351a06ce6c00,
  Songname: 'Thaniye Thananthaniye',
  flim: 'Rhythm',
  Musicdirector: 'A.R.Rahman',
  Singer: 'Shankar mahadevan' },
  { _id: 5c513579123e351a06ce6c01,
  Songname: 'Evano oruvan',
  flim: 'Alai payuthe',
  Musicdirector: 'A.R.Rahman',
  Singer: 'Swarnalatha' },
  { _id: 5c513579123e351a06ce6c03,
  Songname: 'Vennilave venilave vinnalthaandi',
  flim: 'Minsarak kanavu',
  Musicdirector: 'A.R.Rahman',
  Singer: 'Hartharan,Sadhana Sargam' },
  { _id: 5c51377d69141c1b450b891b,
  Songname: 'Thaniye Thananthaniye',
  flim: 'Rhythm',

```

6) List A.R.Rahman's songs sung by Unnikrishnan.

```

var MongoClient = require('mongodb').MongoClient;
var url = "mongodb://localhost:27017/";

```

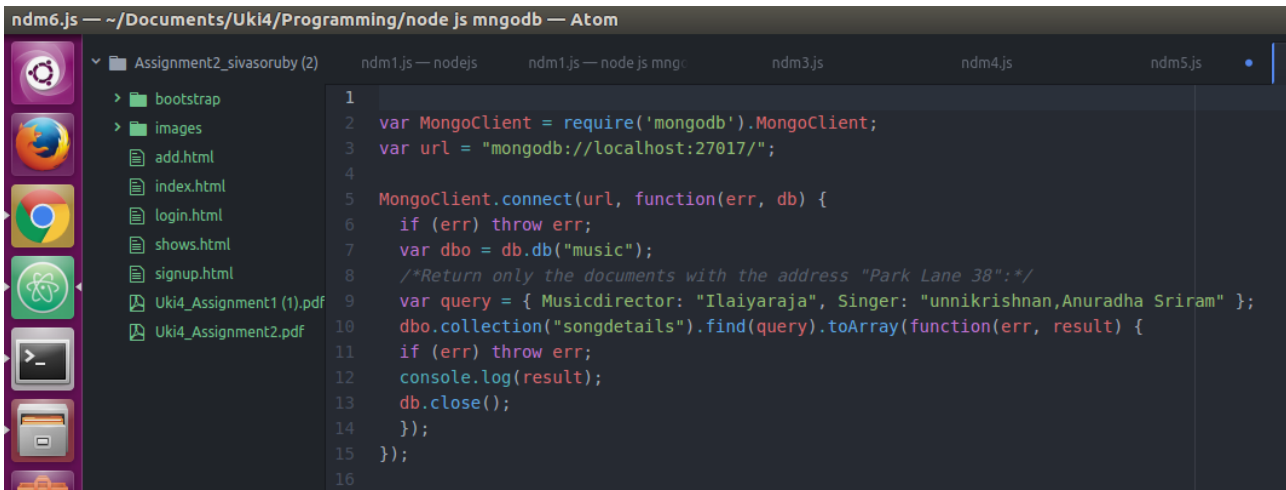

```

MongoClient.connect(url, function(err, db) {
  if (err) throw err;
  var dbo = db.db("music");

  /*Return only the documents with the address "Park Lane 38":*/
  var query = { Musicdirector: "Ilaiyaraja", Singer: "unnikrishnan,Anuradha Sriram" };
  dbo.collection("songdetails").find(query).toArray(function(err, result) {
    if (err) throw err;
    console.log(result);
    db.close();
  });
});

```

```
});
```

7) Delete the song which you don't like.

```
Code: var MongoClient = require('mongodb').MongoClient;
var url = "mongodb://localhost:27017/";
```

```
MongoClient.connect(url, function(err, db) {
  if (err) throw err;
  var dbo = db.db("music");
  var myquery = { Songname: "Roja poonthooddam"};
  dbo.collection("songdetails").deleteOne(myquery, function(err, obj) {
    if (err) throw err;
    console.log("1 document deleted");
    db.close();
  });
});
```

The screenshot shows a VS Code editor with a file explorer on the left displaying a directory named 'node js mngodb' containing files like ndm1.js through ndm7.js and ndma.png through ndma3.png. The editor window shows 'ndm7.js' with the following code:

```

1 var MongoClient = require('mongodb').MongoClient;
2 var url = "mongodb://localhost:27017/";
3
4 MongoClient.connect(url, function(err, db) {
5   if (err) throw err;
6   var dbo = db.db("music");
7   var myquery = { Songname: "Roja poonthooddam"};
8   dbo.collection("songdetails").deleteOne(myquery, function(err, obj) {
9     if (err) throw err;
10    console.log("1 document deleted");
11    db.close();
12  });
13 });
14

```

Below the editor is a terminal window with the command prompt 'ukistu03@ukipc03: ~/Documents/Uki4/Programming/node js mngodb'. It shows the execution of 'node ndm7.js' which outputs a deprecation warning and '1 document deleted'.

8) Add new song which is your favourite.

Code:var MongoClient = require('mongodb').MongoClient;
var url = "mongodb://localhost:27017/";

MongoClient.connect(url, function(err, db) {
if (err) throw err;
var dbo = db.db("music");
var myobj = { Songname: "ammu kuttyee", flim: "jemikaneshanum surilirajan", Musicdirector:
"Ilaiyaraja", Singer: "Hariharan"};
dbo.collection("songdetails").insertOne(myobj, function(err, res) {
if (err) throw err;
console.log("1 document inserted");
db.close();
});
});

The screenshot shows a VS Code editor with a file explorer on the left displaying a directory named 'node js mngodb' containing files like ndm1.js through ndm8.js and ndma.png through ndma2.png. The editor window shows 'ndm8.js' with the following code:

```

1 var MongoClient = require('mongodb').MongoClient;
2 var url = "mongodb://localhost:27017/";
3
4 MongoClient.connect(url, function(err, db) {
5   if (err) throw err;
6   var dbo = db.db("music");
7   var myobj = { Songname: "ammu kuttyee", flim: "jemikaneshanum surilirajan", Musicdirector: "Ilaiyaraja", Singer: "Hariharan"};
8   dbo.collection("songdetails").insertOne(myobj, function(err, res) {
9     if (err) throw err;
10    console.log("1 document inserted");
11    db.close();
12  });
13 });
14

```

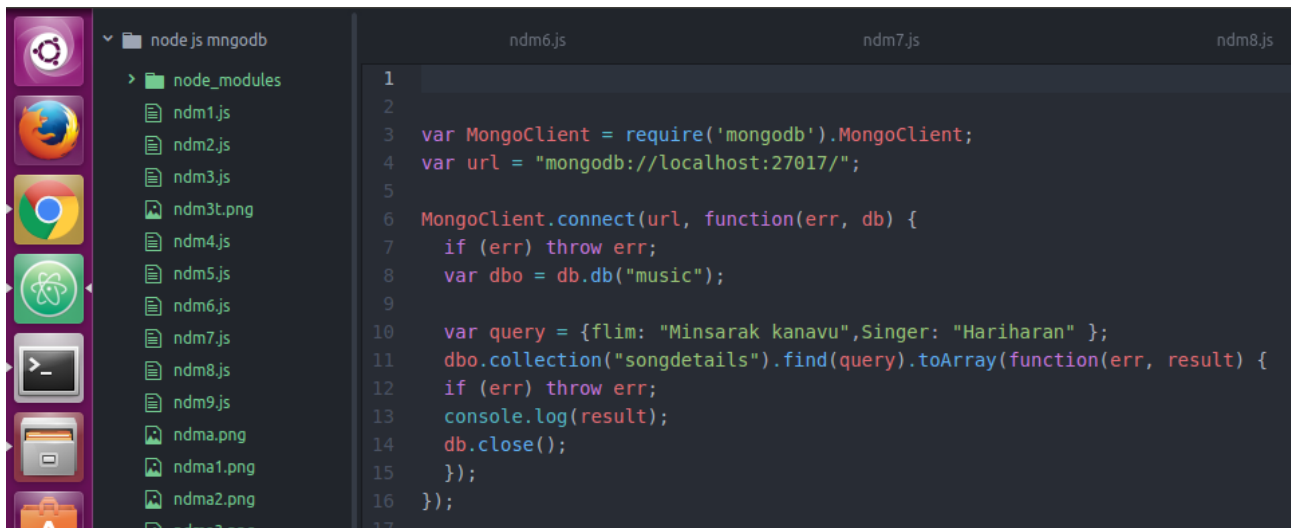

Below the editor is a terminal window with the command prompt 'ukistu03@ukipc03: ~/Documents/Uki4/Programming/node js mngodb'. It shows the execution of 'node ndm8.js' which outputs a deprecation warning and '1 document inserted'.

9) List Songs sung by Hariharan from Minsara kanavu film.

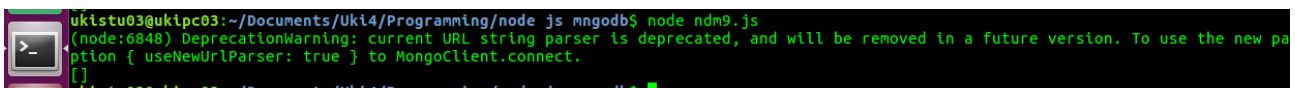

```
var MongoClient = require('mongodb').MongoClient;
var url = "mongodb://localhost:27017/";

MongoClient.connect(url, function(err, db) {
  if (err) throw err;
  var dbo = db.db("music");

  var query = {flim: "Minsarak kanavu", Singer: "Hariharan" };
  dbo.collection("songdetails").find(query).toArray(function(err, result) {
    if (err) throw err;
    console.log(result);
    db.close();
  });
});
```

```
1
2
3 var MongoClient = require('mongodb').MongoClient;
4 var url = "mongodb://localhost:27017/";
5
6 MongoClient.connect(url, function(err, db) {
7   if (err) throw err;
8   var dbo = db.db("music");
9
10  var query = {flim: "Minsarak kanavu", Singer: "Hariharan" };
11  dbo.collection("songdetails").find(query).toArray(function(err, result) {
12    if (err) throw err;
13    console.log(result);
14    db.close();
15  });
16 });
```

```
ukistu03@ukipc03:~/Documents/Uki4/Programming/node.js mngodb$ node ndm9.js
(node:6848) DeprecationWarning: current URL string parser is deprecated, and will be removed in a future version. To use the new parser, pass the option { useNewUrlParser: true } to MongoClient.connect.
[]
```

10) List out the singers' names in your document.

```
var MongoClient = require('mongodb').MongoClient;
var url = "mongodb://localhost:27017/";

MongoClient.connect(url, function(err, db) {
  if (err) throw err;
  var dbo = db.db("music");

  dbo.collection("songdetails").find({}, { _id:0, Singer:1, Songname:0,
  film:0, Musicdirector:0 }).toArray(function(err, result) {
```

```

1
2 var MongoClient = require('mongodb').MongoClient;
3 var url = "mongodb://localhost:27017/";
4
5 MongoClient.connect(url, function(err, db) {
6   if (err) throw err;
7   var dbo = db.db("music");
8   dbo.collection("songdetails").find({}, { _id:0,Singer:1,Songname:0, film:0,Musicidirector:0 }).toArray(function(err, result) {
9     if (err) throw err;
10    console.log(result);
11    db.close();
12  });
13 });
14

```
